

THEY'RE MORE THAN A PET

SO WE PUT MORE INTO YOUR PACKAGING

American Packaging Corporation (APC) values family. Our pets are treasured members of our families, so we want the best for them. This includes selecting the best pet food, kept fresh and flavorful, most likely by a flexible package.

For 120+ years, APC has been the trusted flexible packaging partner to CPGs for both people and pets.

APC has options to reduce your carbon “paw-print” including design for recycling, reductions in the use of virgin plastics, and plant-based content.

Whether you are looking for conventional or sustainable flexible packaging solutions, American Packaging would love to discuss your packaging goals.
