

FREEZE OUT THE COMPETITION

WITH RED-HOT DIGITAL PRINTING

RETM APC Recycle Ready Solutions

No other in-store packaging has to grab customers' attention as fast as frozen-food packaging. In addition to the normal distractions—signage, aisle displays, squeaky shopping-carts—frozen-food packaging is often displayed behind a thick-framed glass door or in an open-top freezer that requires customers to lean over and in to shop. Plus, the packaging itself is ice cold. You can't blame shoppers for wanting to make a quick decision. But we make it easy for them to pick your frozen products with our award-winning printing techniques, anti-fog windows and vivid graphics that showcase the product at its best, making frozen foods look homemade and irresistible. And that's the cold truth.

CAPABILITIES

Converting

- Our Centers of Excellence in New York, Iowa and Wisconsin deploy APC HPE FlexoTM, world class rotogravure and digital printing technologies aligned with efficient processes for fast execution and immediate impact
- Eye-catching print finishes and materials that stand out in the frozen aisle

Package functionality and enhancements

- Laser perforation
- Microwaveable packaging
- Anti-fog coatings
- Reclose mechanisms
- Easy opening features
- Hang holes
- Multi-compartments
