## Converting Centers of Excellence

With a high rate of investment and a focused footprint, APC has the ability to respond quickly to customer needs and provides superior quality by having the newest equipment with the most advanced technologies.

**Engineered Laminations & Coatings** - Rochester, NY

**Rotogravure Printing & Laminating** - Columbus, WI and DeForest, WI

**Flexographic Printing & Laminating** - Story City, IA and Chili, NY

---

## Capabilities

### Printing

- 10 c Rotogravure printing, laminating and coating
- 10 c Hi-Def Flexographic printing, laminating and coating
  - In-house Platemaking
- Hybrid Digital Print System with top and back web coatings
- Ink Jet Printing of unique or random Code Numbers

### Coatings & Lacquers

- Extrusion, heat seal, hot melt, cold seal, anti-fog, wax and matte/gloss lacquer combinations
- Reverse Gravure Coatings

### Laminating & Converting

- Extrusion and Adhesive Lamination
  - Duplex and triplex lamination
  - In-line combination extrusion and adhesive lamination
  - Solvent based, waterbased, and solventless adhesives
- Wax lamination
- Embossing
- Preformed pouch production
  - Stand-Up Doyen and Mitre, 3 Side Seal, Quad Seal
  - Shapes
  - Standard and CR reclosable Zippers
- Laser scoring
  - CD, MD, shaped and Micro Perforations

---

## Customer Support

- Field Technical Support Group often aid in improving production efficiencies on customer's line by optimizing equipment conditions.
  - On-site Troubleshooting, Trial Supervision, Field Audits and Customer Training
- Analytical Lab
  - Barrier, Physical Property, Product Resistance, Product Stability and Material Analysis
- University level research and testing through a strong partnership with Rochester Institute of Technology (RIT)

---

## Center for Packaging Innovation

APC's Center for Packaging Innovation is where new ideas come alive. APC experts, with diverse backgrounds in engineering, material science, chemistry, industrial design, and production, focus on creating a collaborative environment to develop customer solutions.

- Packaging concept and development
- Modeling and simulation
- Prototype development

---

## Certifications

ISO 9001, ISO 14001  
SQF Level 2, FSSC 22000  
G7 Master  
4-pillar SMETA audited  
Six Sigma trained  
OSHA VPP-Star Worksites  
Maintains FDA Drug Masterfile
