RE[®] DESIGN FOR RECYCLE PACKAGING

for stand-up pouches,
pillow packs, and flow
wraps

APC's RE[®] portfolio of Sustainable Solutions includes many Design for Recycle technologies for SUPs, pillow packs, and flow wraps, used for confections, nutrition bars, powders, fruits, snacks, pet food, and personal care.

VALUE TO THE BRAND OWNER

- Transform and enhance your current packaging to a sustainable solution that can be recycled
 - Blue bin for paper
 - Store Drop Off for PE laminates

DESIGN FOR RECYCLE PACKAGE OPTIONS

- PE film and paper-based constructions including heat seal and cold seal options
- Customizable barrier including WVTR, OTR, grease and aroma
- Printing options including rotogravure, flexographic or digital
- Customizable appearance including matte, gloss, patterned matte/gloss lacquers
- Additional PE options include:
 - See-thru windows
 - Zippers including press to close, hook and loop, and Inno-Lok[®]
 - Addition of circular content through mechanical or advanced

APC invested in two state-of-the-art rotogravure presses designed to accommodate printing on extensible Design for Recycle PE films.
